

Keith J. Gott
Associate Vice President

Mr. Gott's healthcare career spans for more than 20 years: encompassing finance roles with hospital systems and with consulting firms such as Cambio Health Solutions, MECON, and Coopers & Lybrand. He has led comprehensive and detailed assessments at hospitals throughout the United States. Mr. Gott's depth of experience in operational studies, program and product line profitability analysis, and long-term financial modeling engagements enables him to deliver unsurpassed insight and solutions to our clients.

Having participated in multiple Operations Improvement projects throughout the country, Mr. Gott brings expertise in the areas of management, operational improvement, financial planning and analysis, operational/capital budget development and implementation, project management, and CQI facilitation. He has also led the development and implementation of productivity monitoring software in multi-hospital systems and teaching hospitals.
