

WEB TEMPLATE AND HOSTING SERVICES

Your on-line presence is a big part of your image. Is it professional? Is it powerful? QHR's Web Template is a fast and cost effective way to get a polished look. With the latest in design features, it invites and engages your community. With the latest in self management tools, it helps you serve physicians and patients... and nurture loyalty.

We've done the hard part. Investing the time and expertise to develop the website you need, we also provide ongoing research and development to keep your website features up to date. Our hosting service provides and maintains a secure and reliable site. But we don't expect you to be satisfied with a cookie-cutter approach. So our designers work with you to customize your site to reflect your organization's culture and vision.

QHR's Web Template includes features such as:

- Online patient pre-registration
- Online bill paying
- Schedule and registration for programs and events
- Net nursery with password protection
- Job postings with online applications
- Online greeting cards
- Physician and facility directory
- Interactive facility map
- Message from the CEO
- Web statistics and graphical presentation reports
- Press releases

QHR also provides a secure hosting service, with:

- No space limitations
- Web traffic graphical analysis and reporting
- Secure website access using a Verisign Security Certificate
- HIPAA compliance
- Firewall protection with daily monitoring
- Secure, reliable 24 hour support
- Maintenance for software and operating system licenses, upgrades and patches
- Disaster recovery including daily backups of website content and offsite storage
- Website regulatory compliance assistance
- Technical expertise to monitor and support background processing

Raise awareness. Enhance credibility. Cultivate relationships.
With Web Template Services from QHR.

QHR provides consulting services, management support, operational turnaround, new hospital development, asset merger/lease sale assistance, education and training programs to healthcare providers and health systems nationwide.
