

## **Nancy Wilcenski**

### **AVP - Information Technology**

Nancy Wilcenski is responsible for provision of IT independent consulting services to meet the diverse needs of QHR's managed facilities, for development and website hosting services of the QHR Website Template, and for assisting with the development and expansion of QHR's IT service offerings. In addition, she provides strategic IT management expertise to Information Systems Departments by consulting on various engagements with emphasis on IT Assessments and IT Strategic Plans.

Ms. Wilcenski worked for Charter Medical Corporation for 21 years and advanced through the IT organization to the CIO position. She has led many multidisciplinary project initiatives and held many positions from development through implementation and training working on numerous platforms with financial, clinical, and marketing applications. She started a small IT consulting business and worked for QHR as an independent contractor before joining the QHR team. She has experience in technology, in the healthcare industry, and with several of our clients.
